

### STRENGTHS

- Real-time Guidance**  
 The solution helps agents and supervisors in real time, improving EX and CX simultaneously.
- Topic Generation and Pre-Built Categories**  
 Our solution features AI-powered topic generation and pre-built categories with our 20+ years of expertise, unlike their Cloud offering, which provides these features only on Premise.
- In-house Developed Speech Recognition**  
 Proud of our market-leading speech recognition rate of 97% in English language.
- Customization**  
 We present more flexibility for our customers when compared to other vendors.
- Professional Services**  
 Our professional services team ensures maximum utilization of the product with training and support
